HUNTERS, YOUR SKILLS ARE GREATLY NEEDED

-Your Donation Of Deer Can Make All The Difference

We get calls daily from feeding programs needing meat for the people they serve. By using your hunting skills you can provide quality lean meat to people who are hungry. Families who are struggling to make ends meet, elderly people living on fixed incomes, children and disabled veterans all will benefit from you using your much needed expertise and skills. **Won't you please go hunting on behalf of those in need.**

Please take your field dressed deer to the processors and collection sites listed in this newsletter. We will then pay the processors to skin, cut, package and freeze the meat so that it can be given to local feeding programs to help people in your communities have the food they need. We are grateful to each of these participating processors. They all give us a discount off of their normal fee and do a great job for the program. They can also do specialty products for deer you are having done for your family such as summer sausage, breakfast sausage and jerky.

For each mature large bodied deer that is donated, 200 quarter pound servings of lean meat can be provided. You, the hunters of Virginia, have been a tremendous blessing to people in need giving over **22.2 million servings of venison since the program began in 1991**. If we are able to reach our goal of providing 370,000 pounds of meat this year, 1.48 million quarter pound servings of quality lean meat will be provided. Please encourage your fellow hunters to also donate deer or have your hunt club earmark a day or two where all deer taken will be donated to Hunters for the Hungry. These are great ways to let people know of the generosity and compassion of hunters and the centuries old tradition of sharing the harvest.

These are our current participating processors -call for directions, hours of operation, and any special instructions
